Building Permit Numbers: _____

Please put all known permit numbers related to this project.

This Waste Management Plan (WMP) must be submitted and approved before your building permit(s) will be issued. Only one WMP is required if a project has multiple building permits associated to it (i.e., multiple houses in a subdivision, or multiple related permits at one address). The administration fee and security deposit (if applicable) must be submitted for this form to be approved. Administration fee is 0.04% of project valuation (min \$40, max \$800); security deposit is 1% of valuation (max \$10,000). The accompanying Waste Log must be submitted within 30 days of final inspection (or permit expiration) of the project, or a fine may be imposed.

A. Building Project Information: Parcel No.: _____ Project Valuation: \$ _____

Job Address: _____

Contractor: _____ Phone: _____

Address: _____

Owner: _____ Phone: _____

Address: _____

B. Type of Work: _____ Residential _____ Commercial Estimated Total Construction costs: \$ _____
_____ sq. ft. New construction (including _____ sq. ft. Addition) _____ sq. ft. Alteration _____ sq. ft. Whole Structure Demolition

C. Briefly describe the project:

D. Materials Required to be Recycled. Please check all the recyclables you anticipate will be generated during the project:

_____ **Scrap metal** items (examples: structural steel, ductwork, gutters, pipes, appliances, fixtures, fencing & railing, sinks, tubs, roofing material);
_____ **Inert materials** (dirt, soil, rocks, concrete, asphalt paving, brick & block);
_____ **Corrugated cardboard** (mostly from packaging);

_____ **Wooden pallets** (whole or broken);
_____ **Clean wood waste** (unpainted, untreated dimensional lumber and plywood; fasteners OK for recycling);

All materials listed above must be recycled if generated during the course of your project. You can either **source-separate** them, which may be hauled by anyone, or mix them in one container and send the **mixed C&D debris** load to a **Certified Mixed C&D Sorting Facility**. Mixed C&D loads can only be hauled by a franchised hauler or self-hauled. Please see Section F. Definitions, on the next page, for more information.

E. Material Management.

1. **How will C&D debris will be stored on the project site:** _____ Mixed C&D _____ Source-Separated
2. **Company to haul away debris:** _____
3. **Facilities to receive debris:** _____

F. Definitions.

Please read and understand these terms. Call Solid Waste at (916) 808-4833 if these terms are not clear to you. More information is also available online at <http://www.cityofsacramento.org/utilities/>.

1. **Self-haul or self-hauling:** This is when the permit holder, general contractor, or a subcontractor who is doing work on the project hauls their own waste materials for recycling or disposal. Note that a jobsite cleanup crew is not doing other work on the project and is not self-hauling. Jobsite cleanup crews need to be franchised in order to haul mixed C&D debris away.
2. **Franchised hauler:** See Utilities web for a list of these haulers. These companies, and the City of Sacramento, are the only companies in Sacramento who can legally collect and haul mixed C&D debris for a fee.
3. **Source separation:** This is achieving compliance with the recycling requirement by keeping wood, metal, cardboard, or other recyclables in separate containers, and sending it to an authorized recycler. (A list of recyclers is on the Utilities web site.) Source-separated material may be hauled by anyone.
4. **Mixed C&D debris:** This is achieving compliance with the recycling requirement by putting all recyclable (and a small amount of unrecyclable) debris into one container. Mixed material must be sent to a certified mixed C&D sorting facility to have the recyclable material extracted and recovered. Mixed material also must be either self-hauled, or hauled by a franchised hauler. If your job site is crowded, this option saves the most space.
5. **Certified Mixed C&D Sorting Facility:** See the Utilities web site for a list. These facilities have been certified by the Sacramento Regional Solid Waste Authority to extract recyclable materials from mixed C&D debris. If you achieve compliance by mixed recovery, your debris must go to a certified mixed sorting facility.

G. Terms and Conditions

- Your approved Waste Management Plan and Waste Log must be kept on the job site in the permit folder for the duration of the project.
- City of Sacramento Solid Waste Services staff may enter the jobsite to inspect waste collection areas.
- Clean Wood Waste (unpainted, untreated lumber, plywood and OSB), Inert Materials (concrete, asphalt paving, brick, block, and dirt), Wooden Pallets, Scrap Metal, and Corrugated Cardboard must be recycled.
- Only SWA-Certified Mixed C&D Sorting Facilities may be used to recycle these materials if mixed with other materials.
- Only SWA-Franchised Haulers or self-haulers (as defined above) may collect and transport trash or mixed C&D material from the jobsite.
- Construction and Demolition Debris may not be burned or dumped illegally.
- Your Waste Log must be completed and submitted within 30 days of your permit being finalized or expired. All waste hauling and disposal or recycling activity must be entered on the Waste Log, including information from any subcontractors who self-hauled their own debris off-site. Enter your Permit Number on your Waste Log now!
- You must keep all receipts or weight-tickets from your project for a period of one year from the submittal of your waste log.
- Failure to comply with these terms and conditions may result in a fine and a security deposit on future projects.
